DISC 2014 – Call for Papers
28th International Symposium on Distributed Computing
October 12-15, 2014, Austin TX, USA

DISC is the International Symposium on Distributed Computing, organized in cooperation with the European Association for Theoretical Computer Science (EATCS).

Important Dates
Abstract Registration May 9, 2014
Paper Submission May 14, 2014
Notification July 11, 2014
Camera-Ready Submission August 5, 2014
Conference October 12–15, 2014

Program Committee
James Aspnes Yale University, USA
Hagit Attiya Technion, Israel
Chen Avin Ben Gurion U., Israel
Shiri Chechik Microsoft Research SVC, USA
Faith Ellen U. of Toronto, Canada
Vijay Garg U. of Texas, Austin, USA
George Giakkoupis INRIA Rennes, France
Seth Gilbert National U. of Singapore
Rachid Guerraoui EPFL, Switzerland
Bernhard Haeupler Microsoft Research SVC, USA
Danny Hendler Ben Gurion U., Israel
Majid Khhabbazian U. of Alberta, Canada
Fabian Kuhn (chair) U. of Freiburg, Germany
Christoph Lenzen MIT, USA
Victor Luchangco Oracle Labs, USA
Dahlia Malkhi Microsoft Research SVC, USA
Thomas Moscibroda Microsoft Research Asia, China
Yoram Moses Technion, Israel
Danupon Nanongkai Brown U., USA
Boaz Patt-Shamir Tel Aviv University, Israel
Andrzej Pelc U. of Québec, Canada
Jared Saia U. of New Mexico, USA
Thomas Sauerwald Max Planck Institute, Germany
Christian Schindelhauer U. of Freiburg, Germany
Jukka Suomela Aalto University, Finland
Sébastien Tixeuil UPMC Sorbonne U., France

Organization Committee
Chen Avin (publicity) Ben Gurion U., Israel
Sebastian Daum (publicity) U. of Freiburg, Germany
Mohamed Gouda (general chair) U. of Texas, Austin
Alessia Milani (workshops/tutorials) LaBRI, France
Corentin Travers (workshops/tutorials) LaBRI, France

Steering Committee
Marcos Aguilera Microsoft Research SVC, USA
Yehuda Afek Tel Aviv U., Israel
Keren Censor-Hillel Technion, Israel
Shlomi Dolev Ben Gurion U., Israel
Antonio Fernandez Anta (chair) IMDEA Netw., Spain
Fabian Kuhn U. Freiburg, Germany
Achour Mostefaoui U. Nantes, France

Scope: Original contributions to theory, design, implementation, modeling, analysis, or application of distributed systems and networks are solicited. Topics of interest include, but are not limited to:

- Distributed algorithms; correctness and complexity
- Concurrency, synchronization, and transactional memory
- Distributed operating systems, middleware, database systems
- Self-stabilizing, self-organizing, and autonomic systems
- Wireless, mobile, sensor and ad-hoc networks
- Fault tolerance, reliability, availability
- Game-theoretic approaches to distributed computing
- Specification, verification, and testing: tools, methodologies
- Networks: protocols, architectures, services, applications
- Multiprocessor and multicore architectures and algorithms
- Security in distributed computing, cryptographic protocols
- Distributed computing issues in the Internet and the Web
- Cloud and peer-to-peer computing
- Mobile agents and autonomous robots

Submission: Papers are to be submitted electronically, following the guidelines on the conference web page. Submissions must be in English, in .ps or .pdf format, and begin with a cover page (not a cover letter) including: (1) title, (2) authors’ names and affiliations, (3) contact author’s postal and email address, (4) a short abstract of the paper, (5) indication of whether this is a regular paper or a brief announcement, and (6) indication of whether the paper is eligible for the best student paper award.

A submission for a regular presentation must report on original research that has not previously appeared, and has not been concurrently submitted to a journal or conference with published proceedings. Any overlap with a published or concurrently submitted paper must be clearly indicated. A regular submission must not exceed 10 single-column pages using at least 11 point font on letter paper (excluding cover page and references). Authors are expected to include all the ideas necessary for an expert to verify the central claims in the paper. If necessary, the details may appear in a clearly marked appendix, which will be read at the discretion of the program committee.

A brief announcement submission must not exceed 3 pages in the same format. It is permissible for the material in brief announcements to be published in other conferences. Submissions not conforming to these rules and papers outside of the scope of the conference will be rejected without consideration. If requested by the authors on the cover page, a regular submission that is not selected for a regular presentation can be considered for the brief announcement format. Such a request will not affect consideration of the paper for a regular presentation.

Publication: The proceedings will be published as a volume in the ARCoSS Springer Lecture Notes in Computer Science series. Camera-ready versions of accepted papers must be submitted in the LNCS format.

Awards: Awards will be given to the best paper and the best student paper. To be eligible for the best student paper award at least one of the paper authors must be a full-time student at the time of submission, and the student(s) must have made a significant contribution to the paper.
