**Preface**

DISC, the International Symposium on Distributed Computing, is an international forum on the theory, design, analysis, implementation and application of distributed systems and networks. DISC is organized in cooperation with the European Association for Theoretical Computer Science (EATCS).

On the following pages you can find the final program for the DISC 2019, the 33rd International Symposium on Distributed Computing, held on October 14–18, 2019 in Budapest, Hungary.

In response to the call for papers, this year we received 145 regular submissions (four of them withdrawn after submission), and 13 brief submissions. All submissions were evaluated by at least three reviewers; we had a program committee with 38 members, and the committee was assisted by 170 external reviewers. For the first time in the history of DISC, we used double-blind peer review: the submissions were anonymous and the PC members and external reviewers did not see the names of the authors.

The program committee decided to accept 34 regular submissions for presentation at DISC 2019. After the selection of the regular papers, the authors of 19 regular papers were invited to submit brief versions of their work, and this way we received 12 additional brief submissions. From among the 25 brief submissions the program committee decided to accept 15 brief announcements for presentation.

The committee selected the following two papers as the co-recipients of the DISC 2019 Best Paper Award:

- Orr Fischer and Rotem Oshman: A Distributed Algorithm for Directed Minimum-Weight Spanning Tree
- Rachid Guerraoui, Petr Kuznetsov, Matteo Monti, Matej Pavlovic and Dragos-Adrian Seredinschi: Scalable Byzantine Reliable Broadcast.

DISC 2019 Best Review Award is presented to D. Ellis Hershkowitz.
This year we have eight workshops held in conjunction with DISC 2019.

The following workshops are organized on October 14, 2019:

- **ADGA**: Workshop on Advances in Distributed Graph Algorithms (chair: Mohsen Ghaffari)
- **ApPLIED2019**: Advanced tools, programming languages, and PLatforms for Implementing and Evaluating algorithms for Distributed systems (chairs: Chryssis Georgiou, Yanhong Annie Liu, Miguel Matos and Elad Michael Schiller)
- **BTT**: Workshop on Blockchain Technology and Theory (chairs: Ittai Abraham, Christian Cachin, Ittay Eyal, Maurice Herlihy and Maria Potop-Butucaru)
- **CELLS**: Computing among Cells (chairs: Matthias Fuegger, Adrian Kosowski, Manish Kushwaha and Thomas Nowak)

The following workshops are organized on October 18, 2019:

- **DiADN**: Distributed Algorithms for Dynamic Networks (chairs: Tomasz Jurdzinski and Miguel Mosteiro)
- **DCC**: Workshop on Distributed Cloud Computing (chairs: Chen Avin and Gabriel Scalosub)
- **FRIDA**: Formal Reasoning in Distributed Algorithms (chairs: Swen Jacobs, Igor Konnov, Stephan Merz and Josef Widder)
- **HDT**: Workshop on Hardware Design and Theory (chairs: Moti Medina and Andrey Mokhov)

I would like to thank all conference participants and everyone who contributed to DISC 2019: the authors of the submitted papers, PC members and external reviewers, keynote speakers, members of the organizing committee, workshop organizers, and members of the award committees. I would also like to thank the members of the steering committee, former chairs, our colleagues in the PODC organization and many other members of the community for their valuable assistance and suggestions, EATCS for their financial support, EasyChair administrators for help with the conference management system, and the staff at Schloss Dagstuhl – Leibniz-Zentrum für Informatik for all the hard work they did with preparing the proceedings volume.

October, 2019

Jukka Suomela
DISC 2019 Program Chair
Final Program
Workshop on Advances in Distributed Graph Algorithms

Chair: Mohsen Ghaffari
Room: Jázmin I

9:00  Thomas Sauerwald: Random Walks on Dynamic Graphs

10:00  Coffee break

10:30  Sebastian Brandt: Automatic Round Elimination: A New Approach for Proving Complexity Bounds in the LOCAL Model

11:30  Endre Csóka: Random Local Algorithms from the Graph Limits Perspective

12:30  Lunch

14:00  Silvio Lattanzi: Large Scale Algorithms, Clustering, and the MPC Model

15:00  Thatchaphol Saranurak: Expander Decomposition: Applications to Dynamic and Distributed Algorithms

16:00  Coffee break

16:30  Rotem Oshman: Distributed Property Testing — Progress and Challenges

17:30  Workshop ends
## ApPLIED2019 Workshop:
### October 14 (Monday)

Advanced tools, programming languages, and PLatforms for Implementing and Evaluating algorithms for Distributed systems

**Chairs:** Chryssis Georgiou, Yanhong Annie Liu, Miguel Matos and Elad Michael Schiller

**Room:** Kamilla 1

BTT Workshop:
October 14 (Monday)

Workshop on Blockchain Technology and Theory
Chairs: Ittai Abraham, Christian Cachin, Ittay Eyal, Maurice Herlihy and Maria Potop-Butucaru
Room: Jázmin II

9:00  Welcome
  Maria Potop-Butucaru, Christian Cachin
  
  Jing Chen: Algorand: A Secure, Scalable and Decentralized Blockchain

9:40  Zarko Milosevic: Crime and Punishment in Tendermint

10:20 Coffee break

10:50 Christian Matt: Toward a Partially Synchronous Nakamoto-Style Blockchain

11:30 Alysson Bessani: Adapting to Evolving Threats against BFT Systems with Weighted and Diverse Replication

12:15 Lunch

14:00 Krzysztof Pietrzak: Bitcoin-like Blockchains from Efficient Proof Systems

14:40 Peter Gaži: Layer-1 Scalability of Eventual-Consensus Blockchain Protocols

15:20 Petr Kuznetsov: The Consensus Number of a Cryptocurrency

16:00 Coffee break

16:30 Discussion and Brainstorming
Computing among Cells

Chair: Matthias Fuegger, Adrian Kosowski, Manish Kushwaha and Thomas Nowak

Room: Kamilla 3

09:00 Janna Burman: Tutorial on Population Protocol
10:00 Coffee break
10:30 Alexander Fedorec: Constructing Synthetic Microbial Communities
11:30 Thomas Gorochowski: Towards a Complete and Quantitative View of Genetic Circuit Function
12:30 Lunch
14:00 Alfonso Jaramillo: TBA
15:00 Manish Kushwaha: Tutorial on Computing in Synthetic Biology
16:00 Coffee break
16:30 Ana Zuniga-Sepulveda: Rational Programming of History-Dependent Logic in Cellular Populations
17:30 Discussion: Perspectives and Open Problems
October 14 (Monday)

17:45 – 20:00 Welcome reception  
Room: Magnolia

October 15 (Tuesday)  
Room: Star Auditorium

09:00 – 10:00 Keynote talk  
Distributed and Concurrent Optimization for Machine Learning  
Dan Alistarh

10:00 – 10:30 Coffee break

10:30 – 11:16 Session

Adones Rukundo, Aras Atalar and Philippas Tsigas

10:50 – 11:10 Polynomial-Time Fence Insertion For Structured Programs  
Seyed Mohammad Taheri Otaghsara, Arash Pourdamghani and Mohsen Lesani

Chen-Da Liu-Zhang, Varun Maram and Ueli Maurer

11:16 – 11:30 Technical break

11:30 – 12:30 Session

11:30 – 11:50 Distributed Algorithms for Low Stretch Spanning Trees  
Ruben Becker, Yuval Emek, Mohsen Ghaffari and Christoph Lenzen

11:50 – 12:10 Low-Congestion Shortcut and Graph Parameters  
Naoki Kitamura, Hirotaka Kitagawa, Yota Otaichi and Taisuke Izumi

12:10 – 12:30 Reachability and Shortest Paths in the Broadcast CONGEST Model  
Shiri Chechik and Doron Mukhtar

12:30 – 14:00 Lunch

### October 16 (Wednesday)

**Keynote talk**

*Network Science – A Bridge Between Social and “Hard” Sciences*

János Kertész

**09:00 – 10:00**

**Coffee break**

**10:00 – 10:30**

**Session**

*Phase Transitions of Best-of-Two and Best-of-Three on Stochastic Block Models*

Nobutaka Shimizu and Takeharu Shiraga

**10:30 – 10:50**

On Bioelectric Algorithms

Seth Gilbert and Calvin Newport

**10:50 – 11:10**

Brief Announcement: Integrating Temporal Information to Spatial Information in a Neural Circuit

Mien Brabeeba Wang and Nancy Lynch

**11:10 – 11:16**

Technical break

**11:16 – 12:30**

**Session**

*Improved Network Decompositions using Small Messages with Applications on MIS, Neighborhood Covers, and Beyond*

Mohsen Ghaffari and Julian Portmann

**11:30 – 11:50**

Message Reduction in the LOCAL Model is a Free Lunch

Shimon Bitton, Yuval Emek, Taisuke Izumi and Shay Kutten

**11:50 – 12:10**

Parameterized Distributed Algorithms

Ran Ben Basat, Ken-Ichi Kawarabayashi and Gregory Schwartzman

**12:10 – 12:30**

Lunch

**12:30 – 14:00**

**Session**

Consensus with Max Registers

James Aspnes and He Yang Er

General Information

Venue

Ensana Thermal Hotel Margitsziget
Margitsziget (Margaret Island)
H-1007 Budapest, Hungary

The spa hotel, opened in 1979, totally restored in 2001, is situated on the picturesque Margaret Island, in the middle of Budapest. The hotel is connected with Ensana Grand Hotel Margitsziget by an underground corridor, so the medical facilities are shared and services of both hotels are at guests’ disposal.

The hotels are surrounded by a peaceful and tranquil green park. Bicycles, horses, carts and electric buggies can be hired to get around.

Opening Hours of the Registration Desk

The registration desk is at your disposal in the Ensana Thermal Hotel Margitsziget at the main entrance level, close to the southern entrance of the building. Please, make sure to pick up your badge as soon as possible, as it is mandatory to wear your badge during all scientific sessions, meals and social events.

- Monday, October 14 (Workshop day) 8:00-19:00
- Tuesday, October 15 8:00-18:00
- Wednesday, October 16 8:00-18:00
- Thursday, October 17 8:00-17:00
- Friday, October 18 (Workshop day) 8:00-17:00
WiFi, Smartphone Application

Free WiFi is available for the participants to connect their devices.

SSID: DanubiusFree
Key: danubius40

It is especially important as you are highly recommended to use our smart phone application called SmartEvents which is kept up-to-date in relation to all program changes. If you have not downloaded it yet, please contact our personnel at the registration area.

Meals and Social Events

Please note, that all meals and side events are included in the registration fees. Tickets are provided only for the banquet dinner, for all other events you just have to wear your badge to join. Please always have your badge on you.

Car Parking

Parking places are available in the parking lot, located in front of the hotel. Barrier-controlled car parking next to the hotel costs EUR 8/day. Guarded underground car park in the hotel is available for EUR 13/day.

Please choose the HOTEL button at the entrance to the Margaret Island to be able to get the above mentioned reduced prices.
